

Network Builders (CCSWW)

Catholic Community Services of Western Washington's Network Builders program works with local ministries, parishes and deaneries to establish and deepen relationships, and to engage parishioners in legislative/public policy advocacy for and with poor families and communities. The Network Builders work in collaboration with leaders of deaneries, parishes, Pastoral Mission Coordinators (PMCs), the Archdiocese of Seattle, CCS/CHS, Catholic organizations such as St. Vincent de Paul and Catholic schools, as well as partners in local governments and non-profits to achieve this mission.
